

Shannon is a neighbor, fellow parent, and a trusted leader for me here in Scarborough. The time she spent on the School Board was literally transformational: she helped bring consensus in the School Board after years of acrimony, and then worked with all constituents - parents, teachers, administrator, the Town Council, and even skeptical tax groups - to gain buy in for the most important (and most necessary) project in our town's history, the restructuring of our elementary and middle schools to meet the needs of our town's growth.

I can think of no other person who would be suited to speaking on our behalf in Augusta. No matter what your party affinity, Shannon will work to hear your concerns and will do everything she can to make Scarborough's voice be heard in the Legislature. Join me in voting for her in November!
